

# **Fiscal Year 2023-2024**

## **Municipal Energy Consumption**

Texas Government Code 2265.001(b) requires cities to publish the following information annually on their website:

- “metered amount of electricity, water or natural gas consumed”, and
- The “aggregate costs for those utility services:”.

This report is consistent with the statutory direction to governmental entities to report the aggregate (combined) costs for electric, water, and natural gas services.

The total cost of natural gas, electricity, and water purchased by the City of White Oak in the Fiscal Year 2023-2024 is \$344,136.

### **Natural Gas**

The City of White Oak purchases natural gas from CenterPoint Energy. In Fiscal Year 2023-2024, the City facilities consumed a total of 1,172 cubic feet (CCF) of natural gas.

### **Electricity**

The City of White Oak purchases electricity from SWEPCO. In fiscal year 2023-2024, the City facilities consumed a total of 2,721,116 kilowatt-hours.

### **Water**

In fiscal year 2023-2024, the City facilities consumed a total of 2,012,730 gallons of water.
